Let's find a way to music and rhythm

## I am a Little Artist

"The artist is not a special kind of person rather each person is a special kind of artist"

Today's art session was filled with experiments and excitement. The artistic skills of our young artists were sharpened by their loving mentors.

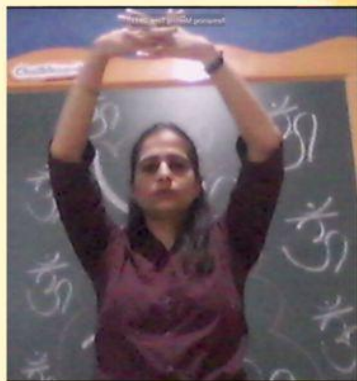

## Fit and Lift

The more you enjoy your exercise routine, the more fitness you gain. In today's fitness session, our Little Angelians reaped the benefits of resistance training while having a ton of fun with their friends, spreading positivity all around.

Cherry on the cake.....

After the rejuvenating session of fitness exercise, the young Angelians had a glass of refreshing lemonade which they prepared themselves.

Let's be Weather Smart

## "Each season has its own beauty"

From thunders and rain to pleasing sunshine, from sweat to shivers, our little munchkins enjoyed all the seasons under the roof in today's hobby class. Their eagerness to know more about these seasons was delightfully satiated by the mentors.

# My Garden Friends

**“Happiness is having lots of green friends.”**

Today our Little Angelians enjoyed the enthralling tour of the garden, learning about their tall and strong green friends and their significance in our lives. The life lessons that today's hobby has offered are truly endless.

## A better feel with a good meal

**“A good meal is a key to good health and happiness”**

A healthy snack was served in the platter in today's hobby class. Angelians relished learning about the various scrumptious and healthy foods. Healthy meal with a pinch of creativity was today's mantra of the facilitators to make our young kids, know the importance of eating healthy.

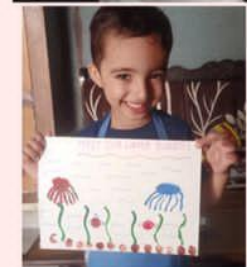

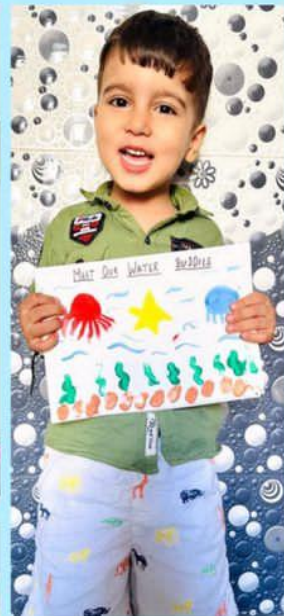

## Meet our Water Buddies

**"Time to explore the magical and mysterious underwater life"**  
Our tiny tots were welcomed into a subaquatic world filled with colours, life and beauty. The young divers virtually dived deep into the oceans to know more about aquatic life.

## Being Young Scientist is so Cool

'Discovering the beauty of science is a work of art by itself'  
Igniting young minds to give a new definition to innovation.

## Help me grow

'He, who plants a tree, plants a hope of a new beginning'

'Angelians enjoyed a dynamic, interactive and awe inspiring session with their green friends'. In this activity, they were motivated to adopt at least one tree and take care of it.

# Mould and fold with 'Dora The Explorer'

"May your hands be full of clay and heart be full of imagination!"  
There is nothing more blissful than giving shape to your imagination.  
Mentors let the creativity of our little explorers flow, they were extremely happy and excited as they were engaged in modeling the clay into a concrete shape.

## Let's Sail with a Tale

'Stories enable us to see through the eyes of other people and Story telling is an art of mixing the reality and fantasy for all ages'

Angelians enjoyed an engrossing session and opened their mind into creative imagination.

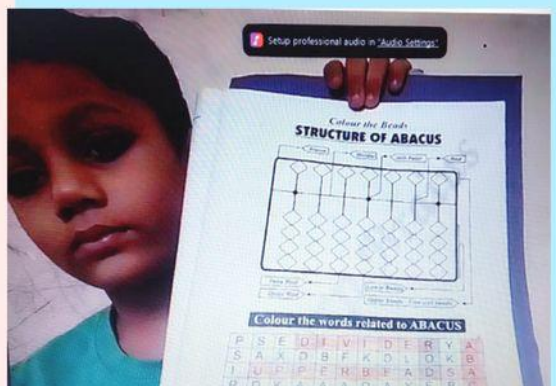

# Abacus

'Not everything that can be counted counts and not everything that counts can be counted'

Angelians enjoyed an engaging session to enhance numerical skills and mathematical ideas.

## I can see Science in everyday life

### “Today’s explorers are tomorrow’s scientists”

There is a hidden scientist in each child.... All we need, is to nurture his/her Inquisitiveness, through the coherent exploration. A special hobby class was conducted to foster the curiosity and satisfy the scientific urge. The children could integrate science with everyday life through their aptitude of learning and experimentation.

## Strength Building Squad

"Physical fitness is the key to a healthy body, peaceful mind and blissful soul."

Angelians learnt about the perfect stretches, bends and jumps through the engaging and thrilling physical fitness activities in Hobby classes.

**A gentle stroke of colours blended with creativity and cheerfulness adds a lot more to the beauty.**

**Angelians added colours to their imagination, life to their creativity and strokes of excellence to their masterpieces in their Hobby Classes.**

A virtual tour to know about our planet mates- Earth is habitat for all  
**“Acknowledging the good that you already have is the  
foundation for all abundance”**

In today's session interaction and colloquy was at its peak as our Angelians had a brain storming session to explore the measures to protect Mother Earth and the planet mates.

## It's cool to groove with dance move

**"Dance is an incredible form of expression, joy of movement and the heart of life"**

Angelians showcased the mesmerizing performances in today's dance session.  
An exquisite combination of majestic grandeur and exuberance was witnessed.

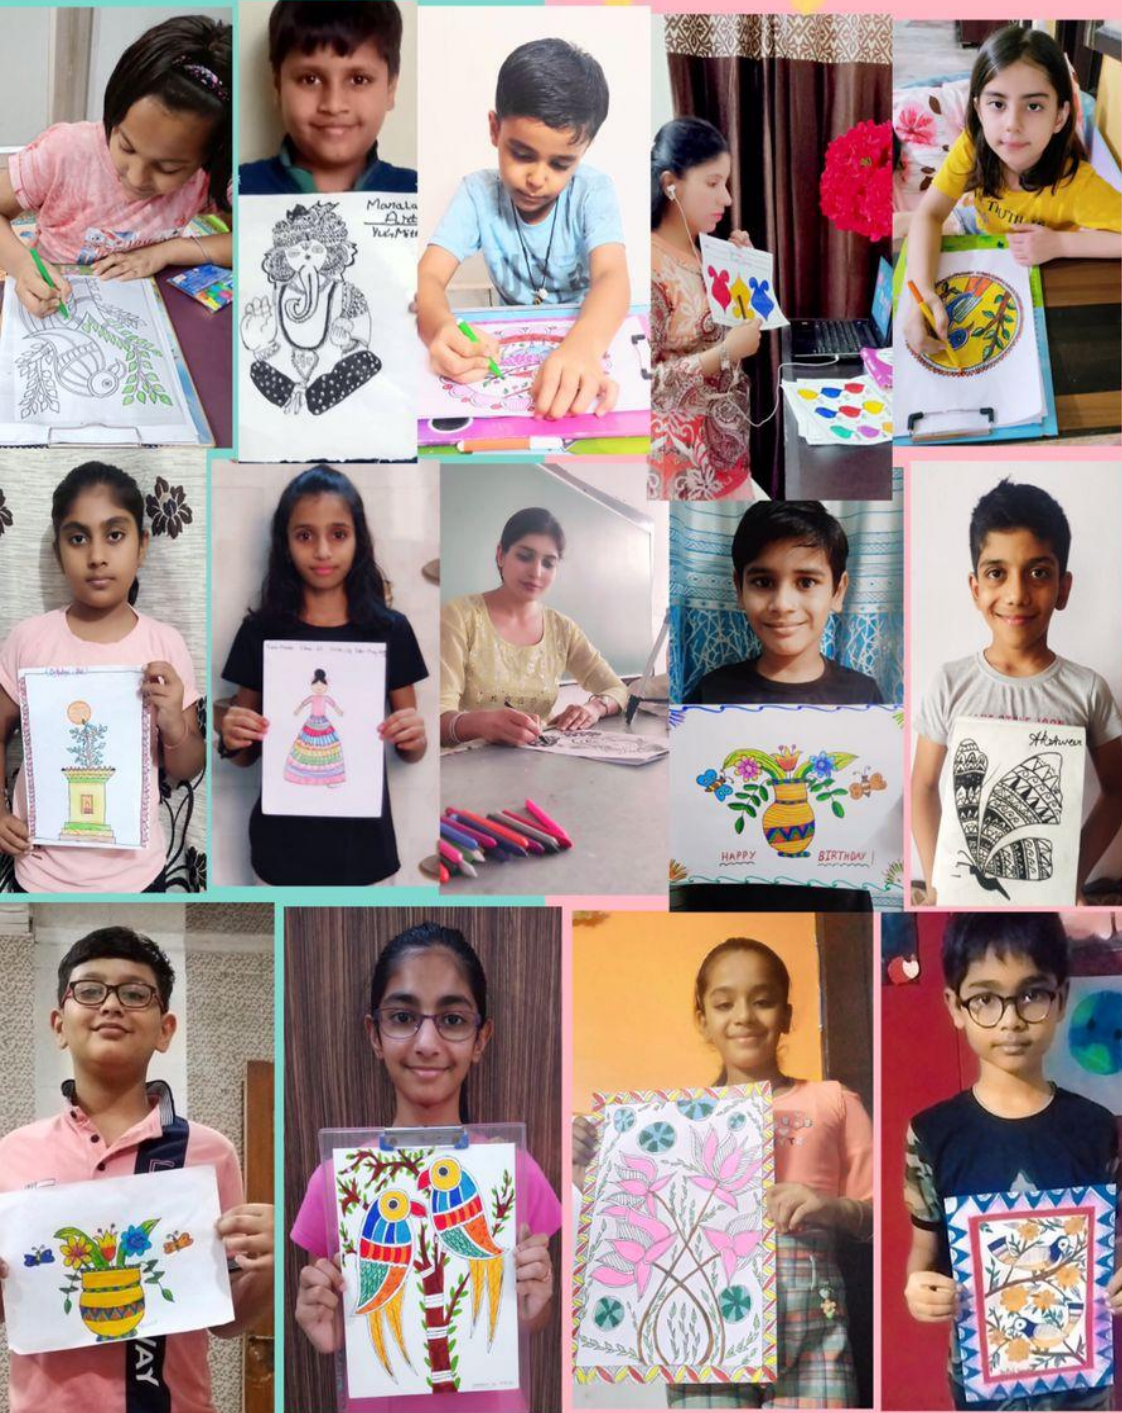

## Be magical with majestic art

"Art is the best way empathizing feelings, cultures and emotions"

Today's art session was a perfect blend of expressing creativity and learning about our rich culture. Angelians played with the paintbrushes and learnt something new with every stroke of it.

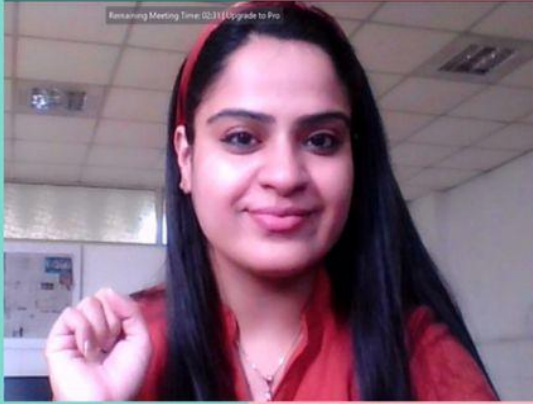

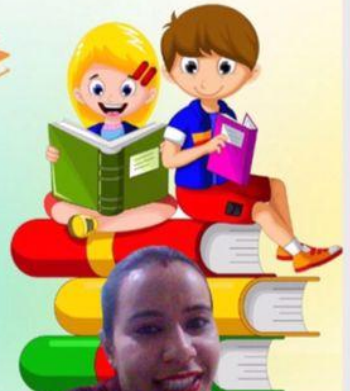

## Read Inspire

"Each book is a whole new world onto itself; Reading is its passport"  
Angelians were aboard to the exuberant journey with their mentors today. They explored new places, new ideas, new vocabulary and had an enthralling experience throughout the session.

## Read Inspire

Read to **relive** and **adorn** your speech

Cooking without fire - Little Chefs trying their hands at culinary skills.

## **"Cooking is the finest of arts and healthiest of habits"**

Today Angelians tried their hands on cooking without fire under the guidance of their mentors. It was a perfectly delightful sight to behold, the crispy, crumbly, mouth-watering delicacy in hands and sparkle in eyes.

# Music gives wings to the mind and flight to the imagination

Little Angelians exploring the different notes of the music during the Hobby Classes

Date: 21st May, 2022

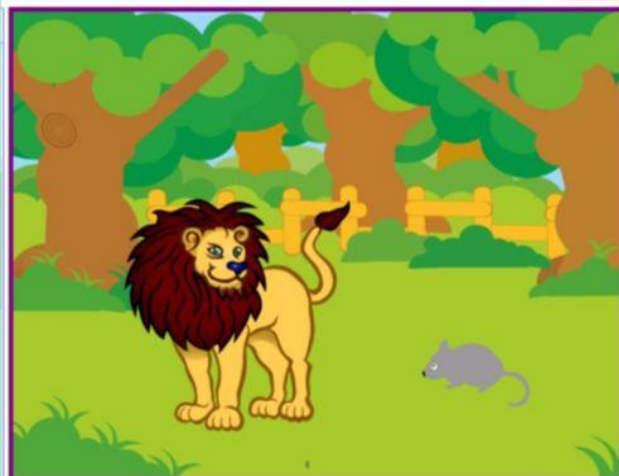

## Bit by bit I make my computer skills hit

Access to Computers and internet has become a basic need for education and it was well witnessed recently too. At Little Angels, no stone is left unturned to keep our young minds updated in every aspect.

**This project wouldn't have  
been successfully  
conducted without the  
unparalleled efforts of  
the teachers,  
incessant support  
of parents and  
above all –the ever growing  
zest of our  
loving Angelians...**

---

**THANK YOU !**
